

Beauties of Computer Graphics

Course requirements

30 points to get credit

- Points get transferred to the exam

Minimum 15 points from the exam + points from semester = your grade

How to get points

- Tasks from the semester

Basic task structure

Research on a topic

- Theory + algorithms
- One chosen approach -> implementation

Output: documentation + program

Implementation

- Any programming language
- Instructions on how to run it

Your own implementation, not just a call of a library function
